

YOUR TRUSTED RESOURCE

GS Global Resources is trusted by OEMs who demand a competitive advantage for every solution. From system and component design to production and market support, we help OEMs interpret, adapt and adopt technology. Solving OEM challenges at the intersection of fluid power and electronic control, our customers profit from our continuous technology and innovation transfer.

New Danfoss DC drive system for the beverage industry: VLT® FlexConcept Advanced

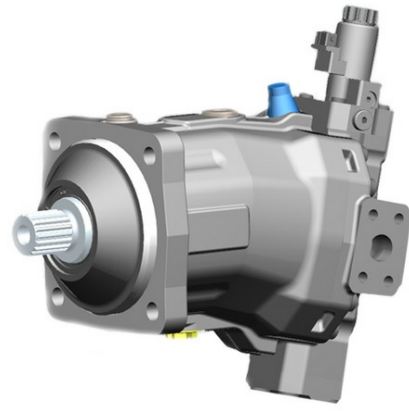

At Drinktec 2017, Danfoss presented a completely new drive concept for the beverage industry. The DC-based system - VLT® FlexConcept Advanced™ - is simple, modular, exceptionally easy to wire and very energy efficient.

Bent Axis Variable Displacement Piston Motors

The Linde Hydraulics [CMV](#) and [CMF](#) motors succeed the bent axis motor (BMV). The two bent axis motors complement the Linde Hydraulic swash plate motors offered in a range of displacement sizes from 55cc to 280cc. With high-speed capacity up to 7200 rpm, the new motors with displacement sizes ranging between 60cc and 215cc offer a nominal pressure of 450 bar and a maximum pressure of 500 bar. The first available displacement sizes will be the CMF80 fixed displacement motor with 80cc and the CMV115 variable speed motor with 115cc, accompanied by electro-proportional controls.

Poclain MHP Motors Integrate Torque Modules Designed on the Latest Fluid Design Software

The MHP motor range, from Poclain Hydraulics, is available in five different sizes and meets these OEM requirements. The displacements of this new motor, range from 900cc to 3500cc per revolution. The motor design allows MHP to reach the highest rotating speeds and horsepower levels on the market, leading to increases in productivity and performance. In addition, the MHP motors can withstand the extreme working conditions that are typical in these applications and are easy to integrate due to their compact size and modularity.

GS GLOBAL RESOURCES
Foremost in Machine Performance for Life

ENERGY-SAVING MODULAR MEDIUM VOLTAGE DRIVES

Solutions That Bring High-Performance to Medium-Voltage Applications

- Variable Speed Drive
- Low and Medium Voltage
- 2 HP - 3000 HP
- Any Application
- Any Environment
- IP66 Rated Solutions

- Touch Screens
- Performance & Error Code Logging
- Bluetooth
- Remote Monitoring, Error Checking, and Program Updates
- Custom Display Screens
- Custom Solutions

Thanksgiving Closing

Happy Thanksgiving - A Time for Gratitude and Sharing.

Thanksgiving allows each one of us to be thankful for our own families and friends. Thankful for good health. Thankful for our jobs to put food on the table, and for those who we work with. We are grateful every day, not just at Thanksgiving. Please take the time to celebrate with your family, friends, and community as Thanksgiving approaches, as well as through the year. Find time to relax and enjoy each day for the good it brings to us all.

GS Global Resources will be closed for Thanksgiving on November 23rd and 24th, 2017.

ENGINEERED SOLUTIONS ELECTRONIC CONTROLS | HYDRAULICS | INDUSTRIAL CONTROLS

GS Global Resources offers a broad range of hydraulic and electronic control products. Our roster of high-quality brands covers every aspect of electro-hydraulic system integration. From off-the-shelf products to systems integration, we improve the efficiency, productivity, and durability of your machine,
